

Wherever you see **red characters**, these need to be replaced by your information. This includes the **< >** symbols!

Reading in Data

```
IPEDS <- read_csv(here::here("data",  
                             "<NAME OF DATASET.csv>"))  
)
```

Note: The name of the dataset will change, but it will always need to have the .csv at the end of its name!

Preview a Dataset

```
glimpse(<NAME OF DATASET>)
```

Calculating Summary Statistics for One Numerical Variable

```
favstats(~ <NAME OF VARIABLE>, data = <NAME OF DATASET>)
```

Note: The ~ **must** be included *before* the name of the variable!

Histogram

```
ggplot(data = <NAME OF DATASET>,  
       mapping = aes(x = <NAME OF VARIABLE>)) +  
  geom_histogram(binwidth = <WIDTH OF BINS>) +  
  labs(x = "<TITLE FOR THE X-AXIS>")
```

Note: A histogram **must** have the variable on the x-axis!

Dotplot

```
ggplot(data = <NAME OF DATASET>,  
       mapping = aes(x = <NAME OF VARIABLE>)) +  
  geom_dotplot() +  
  labs(x = "<TITLE FOR THE X-AXIS>")
```

Note: A dotplot **must** have the variable on the x-axis!

Boxplot

```
ggplot(data = <NAME OF DATASET>,  
       mapping = aes(x = <NAME OF VARIABLE>)) +  
  geom_boxplot() +  
  labs(x = "<TITLE FOR THE X-AXIS>")
```

Note: This boxplot is horizontal. If you want for your boxplot to be vertical, you use **y** = instead of **x** = . Keep in mind you will need to change the location of you axis label, too!
